OVERVIEW OF THE DAY:

As well as the necessary housekeeping at the beginning of a workshop, it is very important to give the Participants an overview of the program. This is especially important for Right Brain and Global thinkers who need to have a ‘big picture’ context.

Use of Charts for the Overview rather than Power-Point:

PowerPoint slide shows are often pre-packaged programs which do not allow for much flexibility. The term “Death by PowerPoint” is relevant on so many occasions.

We understand that many Trainers are asked to roll out corporate PowerPoint packages across their organisations to ensure “consistency”. These packages can become the training *in themselves*, rather than being seen as a resource that *supplements* your live training.

The use of charts is an older training technique that is enjoying a resurgence in popularity. It allows the audience to feel part of a Living Curriculum that is being developed for their unique situation. They feel they are involved in determining the direction of the day.

The technique demonstrated in this Overview of the MTTI program is one using a chart stand and talking of the day as a ‘Journey’. It involves a *Change of State* activity by starting from the bottom of the page, and placing the Course Outline on either side of a curved road, leading up to a destination or ‘Benefit’ for participants at the end of the day. This is an example of an embedded command with all the excitement and surprise a journey offers as it travels to the destination.

Other training techniques that are modelled here are the use of:

- Colour
- Symbols
- Left and Right brain needs
- Key words and ideas
- Change of State – the power of surprise and the unusual
- The Pencil Technique to lessen the Educator’s nerves

- Reference:
1. *Flip Chart Magic*, Dave Arch & Ivar Torgrimson
 2. Techniques for developing good Brain friendly PowerPoints

PROGRAM OVERVIEW

Your RAS Alert !!!

PONDER, PROCESS & PROJECT:

(Consider, convert & connect what you've learned into how you can use it in your own training...)

MY IDEAS:

**TECHNIQUES USED WHIST EXPLAINING THE VISUAL,
AUDITORY, KINAESTHETIC AND TACTILE LEARNERS:**

EXPLAINING V A K T

- UNIVERSALS:**
1. Flat Pack Fan
 2. DVD Recorder
 3. _____
 4. _____
 5. _____
 6. Visualizing your Home: (a) Sitting Up
(b) Bending Down

CONSCIOUS CONVINCER: Wallpaper to Necklace
(Using all four Learning Styles is fantastic!)

KEY: We usually have a preferred pattern of processing information when we learn, and knowing our order of processing can assist us to learn faster.

As a Trainer, it is best to aim to provide the information through a combination of all four perceptual styles.

- Reference :
1. Dunn and Dunn's Learning styles.
 2. Many Learning Style books talk of only the Visual, Auditory and Kinaesthetic Learners but now, through the work of Dunn and Dunn, the Tactile learner is recognised as a distinct group. NLP also makes us aware of the Auditory Digital person who is very much the "wordsmith" and inclined to do a lot of internal dialogue.

N.B. The power comes in Learning and Training when all four Learning styles are included and catered for – make sure you incorporate them in your future presentations for maximum learning and retention in your audience.

MINDWORKS

Training that Excites...

MINDWORKS DIRECTOR, LAURIE

KELLY, speaks both nationally and internationally on current knowledge of how the mind works to maximize the Impact of Training, and to create an Openness Factor in our approach to Change and new Learning.

Laurie has been opening up the mysteries of the mind to audiences from all walks of life for nearly 30 years. He has a reputation for having an uncanny ability to communicate on a level that everyone can appreciate and is passionate about the importance of the information he shares.

Our most popular course is our Trainer Intensive program, '**Maximizing Your Training & Teaching Impact**'. This is Professional Development for trainers at its very best, modelling techniques and processes that are Brain-friendly and designed specifically to excite and engage the learner to go far beyond what they thought was possible.

The effectiveness of this program is immediate, dramatic and impressive – and has two further benefits:

- Firstly, it is nationally accredited and officially recognized by DET as the first, and only, independent training PD course accepted as an unspecified Elective unit ('*Effectively engage learners in the learning process QLD200MTI01A*') in the TAE40110 (which is the industry standard qualification for all trainers)
- Secondly, it is current and powerful Professional Development for all trainers based on the 5 Principles of Brain-Friendly learning – often trainers have completed the TAE40110 without an elective that focuses solely on delivery, which is where this invaluable course excels

Laurie Kelly's experience also includes Conference Keynote & Workshop sessions and Public and In-house training programs, delivered in Australia and overseas. He has worked extensively within many departments of the Government Sector, and within the areas of Education, Health, Resources, Council and Corporate organizations. Laurie is one of the most sought-after Presenters in his field.

SKILLS AND EXPERIENCE = DYNAMIC TRAINING

TRADITIONAL “MINDWORKS” AREAS

Understanding how our Minds work and playing the Mental Game.
REKINDLING THE SPIRIT SEMINARS

The Mind, the Brain and our Thinking: - how they affect everything we do

- Flexing the Mental Muscle - getting on top of the Mental game
- Change and Possibility Thinking
- Stress Hardiness
- Team Development

Using the Whole Brain and Reducing the Effort:

- Mastering Information Overload
- Creativity and Innovation Skills
- Accelerated Learning in the Business Environment
- Mind Mapping
- Study Skills

Trainers, Facilitators and Presenters:

- Maximizing the Training & Teaching Impact
- Creating the Thinking Environment – Dynamic Thinking Strategies for Facilitators and Managers
- Exciting Students to Learn - Teachers, Teacher-Aides and T.A.F.E. Educators
- Presentation Skills

OTHER AREAS WITH THE ASSISTANCE OF OTHER TRAINERS

Communication Area

- Negotiation Skills
- Customer Service
- Handling Difficult Situations
- Profiling
- Valuing People
- Building Rapport in Moments not Months
- Employee Engagement & Generations at Work

Business Strategies

- Leadership
- Strategic Planning
- Business Planning and Development
- Selling Ideas
- Influencing
- Valuing your People

Meeting Tools

- Meeting Management
- Creating the Thinking Environment – Brainstorming Strategies
- Meeting Minutes

EVALUATION SHEET

We appreciate your feedback !!!

	Excellent	Good	Acceptable	Disappointing
